WORK EXPERIENCE

Software Developer
Helios Web Services

📅 July 2023 – Ongoing   📍 Jaipur, Rajasthan, India

Achievements/Tasks:
- **AWS:** Worked on IaaS, PaaS, server/database migration, IAM, Cognito, CloudFront, SES, SQS, SNS, CloudWatch, and security report.
- Implementing secure authentication using JWT, OAuth, Server-Side Validation, etc. to prevent Cross-Site Scripting, SQL injection, and other common security threats.
- Optimizing application performance by reducing load times, minimizing HTTP requests, and lazy-loading modules where necessary. Implementing efficient data retrieval and caching strategies, using technologies like memoization and local storage. Utilizing lazy-loading and code splitting to load only the required resources for each route, reduces the initial load time.
